Genesi Alluminio HALO Base

Genesi Alluminio hte base is the best performing spray gun in our line of products for applying water and solvent based paint. HTE high transfer efficiency is an atomization system that combines a higher pressure than the standard hvlp with an equivalent or even higher transfer efficiency, making application easier and faster. Genesi HTE has been tested by UDRI laboratories and compliant as per California SCQAMD certification. This spray gun is the result of Walcom's research and experience, a company that proudly produces all the components of the spray gun internally, the Carbon Genesis represents the maximum evolution of its...

Genesi Alluminio hte base is the best performing spray gun in our line of products for applying water and solvent based paint.

HTE high transfer efficiency is an atomization system that combines a higher pressure than the standard hvlp with an equivalent or even higher transfer efficiency, making application easier and faster.

Genesi HTE has been tested by UDRI laboratories and compliant as per California SCQAMD certification.

This spray gun is the result of Walcom's research and experience, a company that proudly produces all the components of the spray gun internally, the Carbon Genesis represents the maximum evolution of its category; a body machined in a single step by 5-axis cnc, consisting of a forged aluminum core, carbon overlay for a unique lightness and ergonomics, an exceptional feeling, maximum quality of the result and an efficiency.

FIELD OF APPLICATION: SOLVENT AND WATERBORNE BASE COAT

The performance level of the GENESI line in the traditional anodized ALUMINUM version. Extremely light (only 415 g), easy to handle and ergonomic, it is an ecological spray gun and resistant to any solvent. Easy to use and clean, it is available in the versions for base HALO (High Atomization Low Overspray) BASE - HVLP - GEO and for clear HALO (High Atomization Low Overspray) CLEAR.

Genesi Alluminio HVLP

Genesi Alluminio hte base is the best performing spray gun in our line of products for applying water and solvent based paint. HTE high transfer efficiency is an atomization system that combines a higher pressure than the standard hvlp with an equivalent or even higher transfer efficiency, making application easier and faster. Genesi HTE has been tested by UDRI laboratories and compliant as per California SCQAMD certification. This spray gun is the result of Walcom's research and experience, a company that proudly produces all the components of the spray gun internally, the Carbon Genesis represents the maximum evolution of its...

Genesi Alluminio HALO Clear

Genesi Alluminio HALO clear is the best performing spray gun in our line of products for clear coat and single stage. HTE high transfer efficiency is an atomization system that combines a higher pressure than the standard hvlp with an equivalent or even higher transfer efficiency, making application easier and faster. Genesi HTE has been tested by UDRI laboratories and compliant as per California SCQAMD certification. Genesi HTE clear MP is the new cap, a very technical and closer application, an increased venturi that leads to a very "extended"

"mirror" distension of the transparent. This spray gun is the result of...
